

【Product Description/产品描述】

- A tool for engraving small circular rivet shapes. 本品为圆形小铆钉
- The tip of the punch is a hemispherical concave. 制作器顶部是一个半球形凹面。
- Each punch is engraved with a size number (# 0-22). 共有(# 0-22)23支制作器。
- Applicable materials: plastic, resin cast, etc. 适用于树脂、塑胶。

【How to use / 使用方法】

- ① Attach the punch to the handle. 把制作器插入手柄。
- ② Press the tip of the punch straight on the material you want to process. 把制作器尖端按向要制作的目标材料。
- ③ It is also possible to drive the punch body with a small hammer (sold separately). 也可用小锤(另卖)敲击制作器。
- ④ Depending on the amount of power applied during processing, the way to cut in will be different. Be sure to perform test use and adjust while adjusting. 力度不同, 刻入深度也不同, 使用前应先试验。

(please note)

The punch body is made of metal, but the tip will wear out when used. If you try to drive with strong force, the material to be machined may be deformed. 请注意:切勿大力使用。
